Yes, got them both transferred. I have the non-haz box scheduled for pickup on Wednesday. As of right now, the hazardous box can't be processed by Clean Harbors until October. We are on the standby list in case someone cancels. I have requested that we be allowed to ship the box to get it off the CES site as soon as possible.

I plan to invoice for the work done and the disposal of the non-haz box as soon as it is shipped. The disposal of the haz box will have to wait until it is processed and weight is verified. Do you agree with all of that?

Did you see the coverage on the news last night? The fire department was at the site on Saturday afternoon and the news said they took water samples and were having them analyzed. Apparently the agencies and city departments aren't communicating with each other. Surprise, surprise.....
